

Tom Lounge

The Tom Lounge wraps you in from the moment you sit. Its sculptural winged backrest flows into wide armrests, forming a sheltering silhouette that invites you to settle in properly. The seat is deep enough to let you lean back during a longer conversation, while the supportive frame keeps you comfortably upright for focused work.

Whether you're waiting for a client, taking a call between meetings, or simply claiming five minutes of quiet, the chair holds you without fuss—no adjustment needed, just immediate comfort that feels right.
